

A Future with or without Technology?

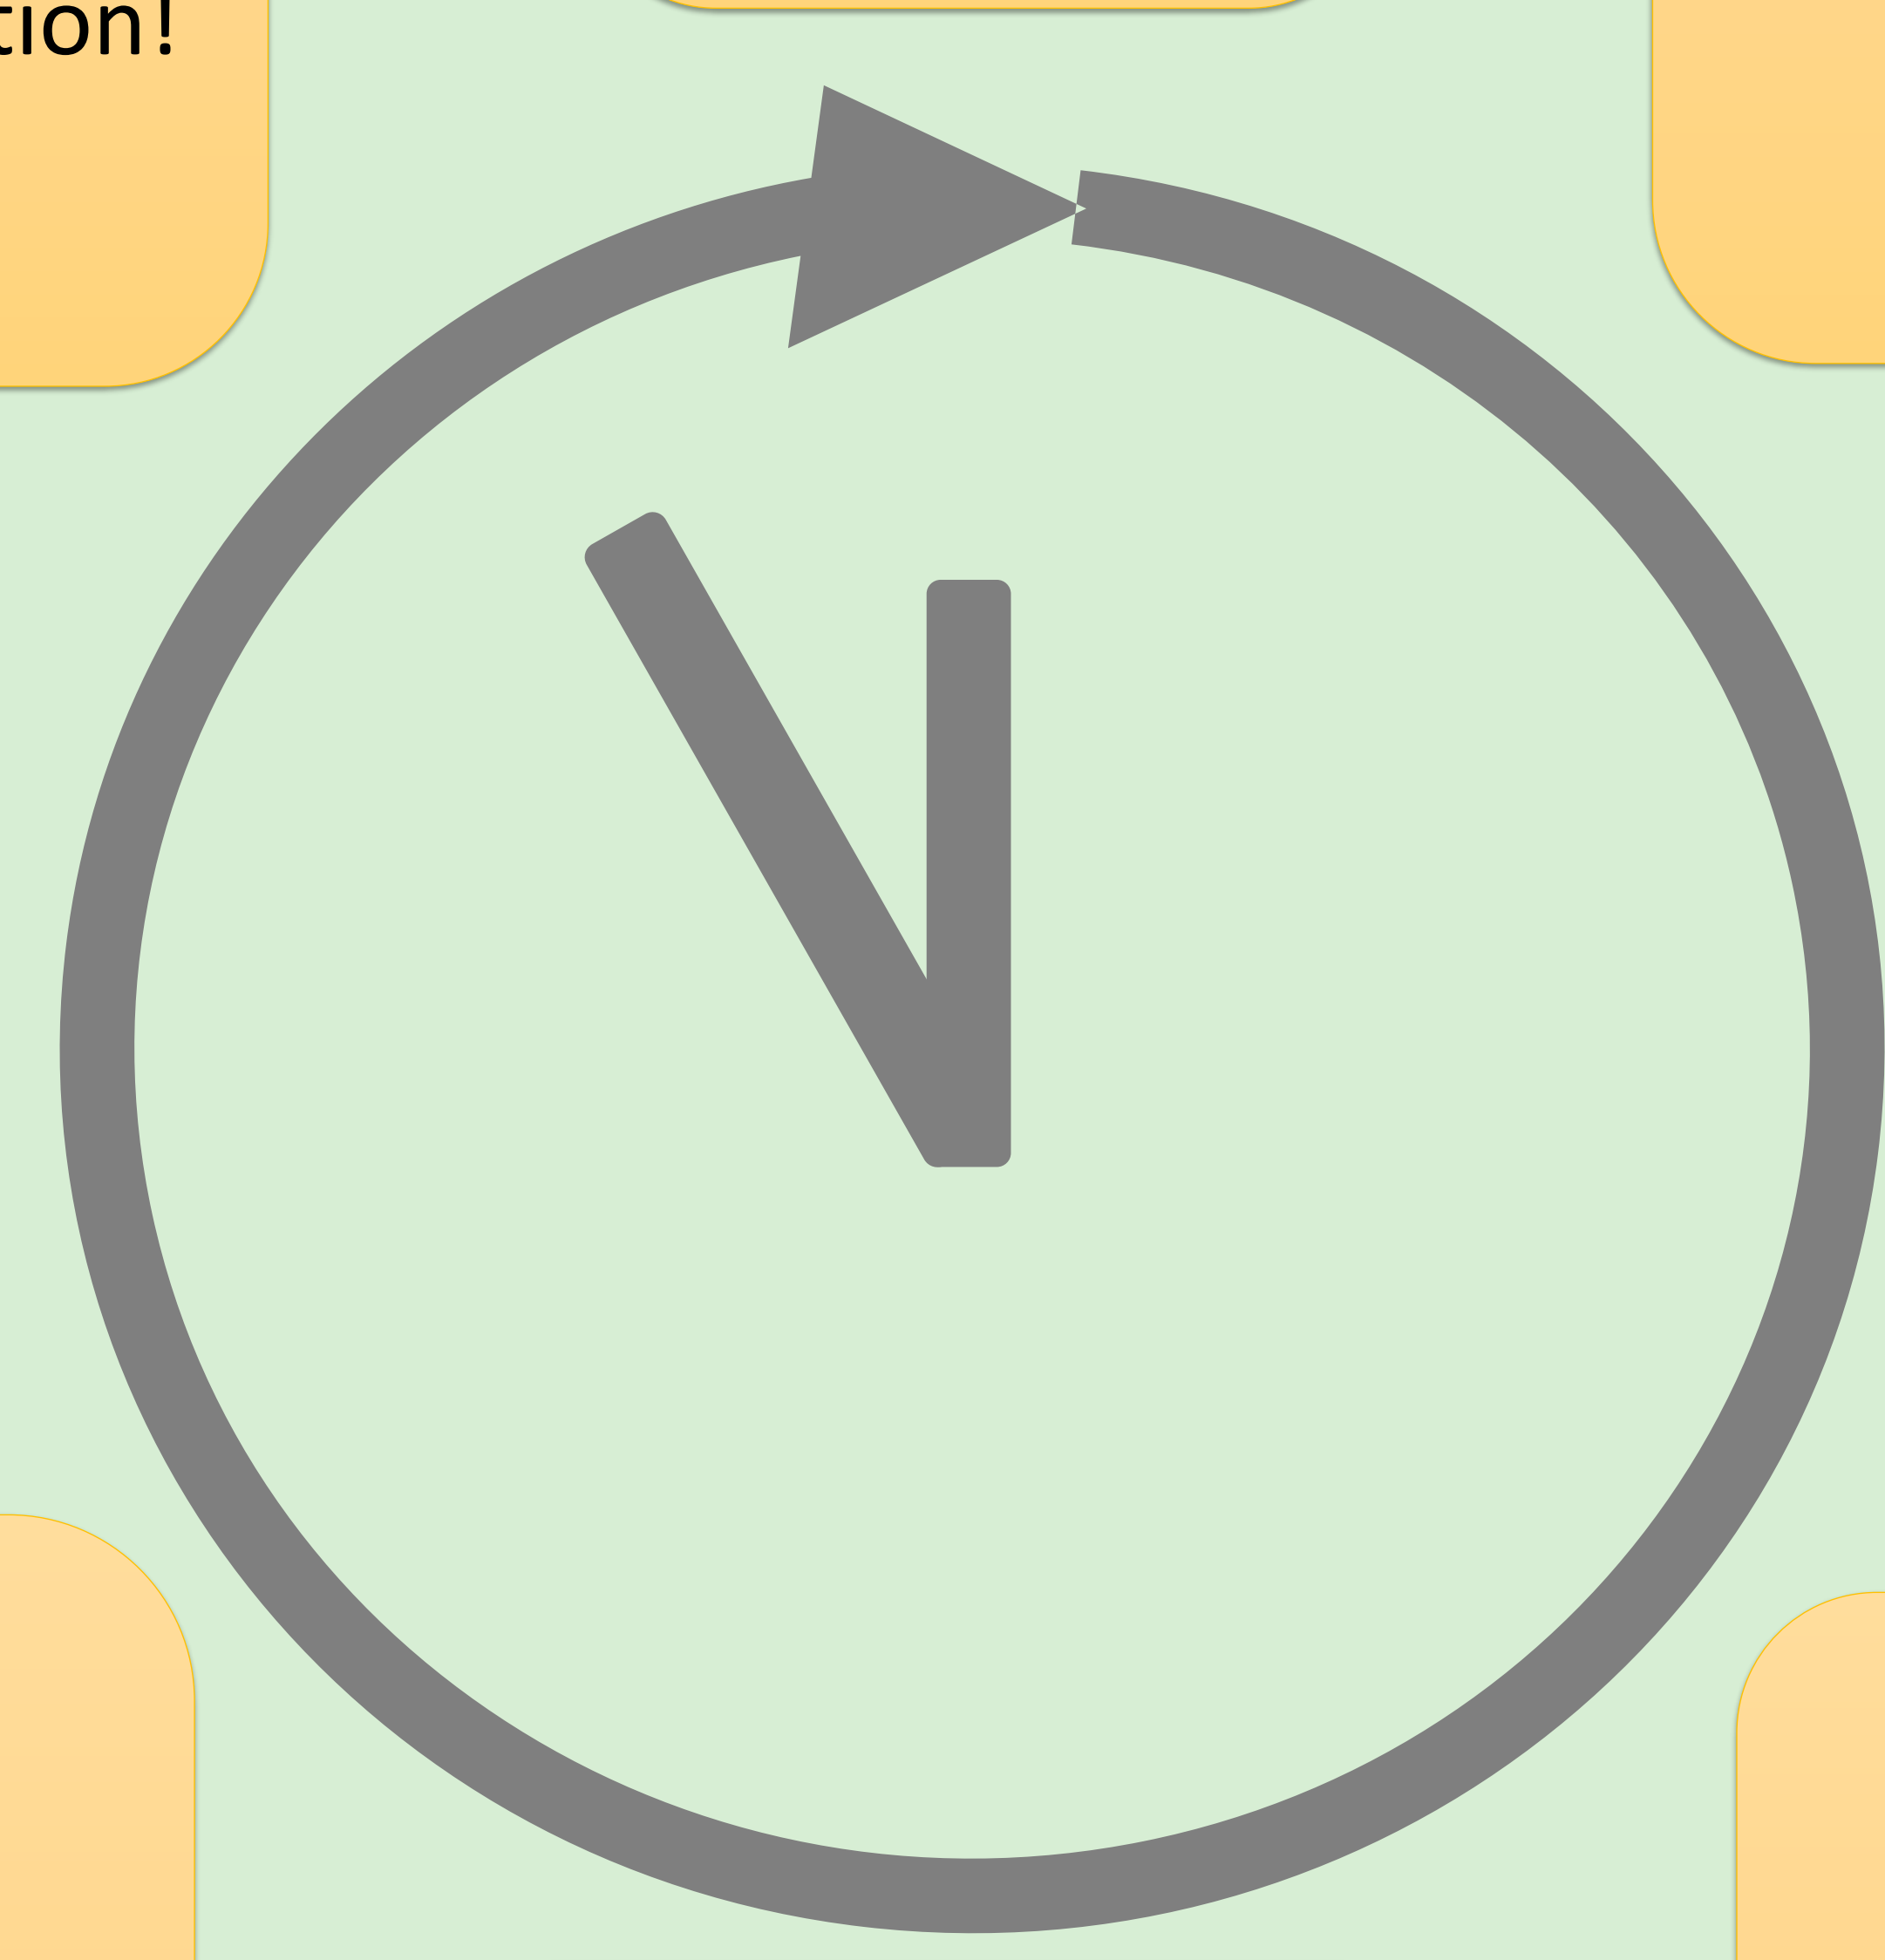

Intro

Digital technologies have become an integral part of our lives. Just a few decades ago, many of these digital technologies did not even exist. So what will our digital future look like? Is it sustainable? Do we want to and can we live in this future? You can see some ideas in the video. How do you imagine your (digital) future?

The method

The future workshop is a tried and tested method that was developed to allow students to develop an idea of a desired future. The concept involves students working in groups with the help of various materials on the basis of work assignments. The Future Workshop has been developed according to scientific standards and is also didactically based.

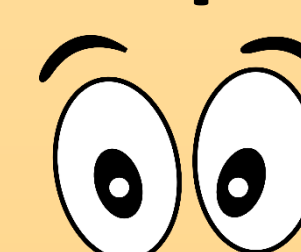

Step 1:

Build a Team

🕒 10 min

Step 2:

Collects Impressions on the topic

🕒 25 min

Step 3:

Create a Mindmap with all your ideas

🕒 30 min

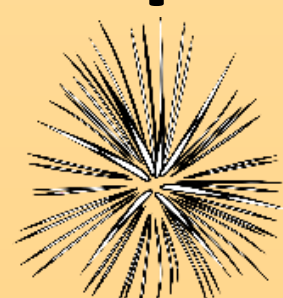

Step 4:

Classify and Organize your results

🕒 20 min

Step 5:

Find solutions for your selected problem

🕒 30 min

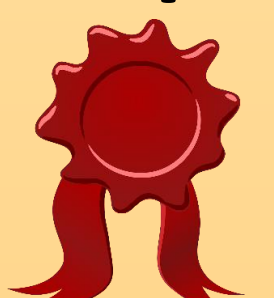

Step 8:

Bring together Share your resolution!

🕒 30 min

Step 7:

Our Resolution

🕒 15 min

Step 6:

Write Notes for the resolution

🕒 20 min

Our Resolution

The problem we would like to solve...
